

Hotel Rule & RD's

Scenario

Multiple homes (some are adjacent homes) on the same block have fresh paint graffiti on them and you know it's the same offender.

Five people were robbed at the same bar by the same offenders.

Five vehicles had their catalytic converters stolen on the same block and POD cameras determine it's the same offender within that short time frame.

The Question

- How many RD#'s for each scenario?

Comments

- If one RD is used, only a single location of occurrence can be used. Therefore the narrative must list the damage to each location.
- If using multiple RD's, must relate each RD to each other.
